HEALTH OFFICER'S REPORT

To the Citizens of Newport:

During the past fiscal year Newport has been very fortunate with relation to contagious diseases.

Scarlet Fever topped the list with 22 very light cases during the months of February, March and April.

Whooping Cough appeared during March and 12 cases were reported, but there probably were other cases which were not reported due to a misapprehension that Whooping Cough is just another cold. This is not the case. Whooping Cough is a very dangerous disease and should be handled as such. No child should be allowed to catch it where it can possibly be avoided.

Three cases of Measles and two of Chicken Pox were reported. It is the duty of every citizen to report any case of a contagious disease to the Health Officer, or for that matter, any other condition of an unhealthy nature, if he has reason to believe that it has not already been reported.

During June a disagreeable situation arose with relation to one of the main sewer pipes which empties into Sugar River just south of the old Peerless buildings. On account of high water, lack of grade, etc., the pipe was not emptying properly and was backing up on Condon's meadow. The sewer pipe has been extended 24 feet into the river, which it is hoped will correct the difficulty.

The following report has been handed in by Cluffie M. Gobie, R. N., field nurse for the New Hampshire Tuberculosis Association.

The New Hampshire Tuberculosis Christmas Seal Sale of 1936 provided the necessary funds to continue the regular diagnostic clinic and nursing services for the people of Newport, and the following report gives a brief outline of the work accomplished during the year:

Number of clinics	3
Number of persons examined	74
Number of new persons attending the clinic	44
Number of new positive tuberculosis cases found	3
Number of new suspicious tuberculosis cases found	7
Number of contact families under supervision	40
Number of positive tuberculosis patients under supervision	29

Number of suspicious and contact patients under supervision 53
Number of patients cared for at sanatoria 2

Through the continued cooperation of the local hospital in providing x-ray service for clinic patients at a minimum cost, early diagnosis of tuberculosis in many cases has placed them under proper treatment, and will hasten their recovery.

We take this opportunity to thank all who have assisted in any way to maintain this service for those suffering from tuberculosis.

Respectfully submitted,

EDWARD J. MALEY, Health Officer.

REPORT OF

WATER COMMISSIONERS AND SUPERINTENDENT

To the Citizens of Newport:

The report shown below is in different form than heretofore to comply with the requirements of the Public Service Commission in regard to accounting for Municipal water systems.

The Legislature, by Section 1 of Chapter 153 of the Session Laws of 1935 has provided that:

"Any city, town or village district owning, operating, or managing any plant or equipment, or any part of the same, for the manufacture or furnishing of light, heat, power, or water for the public, or engaged in the generation, transmission, or sale of electricity or gas ultimately sold to the public, shall be subject to all the provisions of the Public Laws of New Hampshire set forth in Chapter 240, Sections 7 through 18, inclusive."

Chapter 240, Section 7, provides as follows:

"Accounting Systems. The commission may, whenever it deems advisable, establish a system of accounts and records to be used by railroad corporations and by public utilities for their business within this state, may classify them and prescribe a system of accounts for each class, and may prescribe the manner in which said accounts shall be kept."

In order to comply with the requirements of the Public Service Commission made under this law, it was necessary to have a cost analysis made of the system showing depreciation, and also it was necessary to install a new system of bookkeeping so that the data required by the Public Service Commission would be available.

As the Public Service Commission required a new accounting system to apply to the year ending January 31, 1937, a report for that first year showing the new system is printed herewith in addition to the report for the year ending January 31, 1938.

The bookkeeping system of the Water Department in the past had always been on a cash basis. The present system pre-

scribed by the Public Service Commission is on an accrual basis. The actual cash received during the year ending Jan. 31, 1938, was as follows:

Water rents	$ 16,906.35
Labor and materials paid for by individuals	287.28
	$ 17,193.63

This sum of $17,193.63 is that which was paid by the Water Department to the Town Treasurer during the year.

FREDERICK GAMASH,
FRANK E. BRONSON,
JOHN W. McCRILLIS,
Water Commissioners.

HAROLD P. SHEPARD,
Superintendent.

February 1, 1938.

REPORT OF

CHIEF ENGINEER OF THE FIRE DEPARTMENT

To the Selectmen of the Town of Newport:

I herewith submit my annual report of the condition and services of the Fire Department for the past year.

I reported last year that we had the most active year in the history of the organization, but I have to report that there has been more activity this year than the year previous; however, our fire losses have been very small compared to the numbr of alarms responded to, with the exception of the Brampton Mill storehouse fire, which was the greatest loss that we have had for a number of years.

Our equipment has been kept in good condition and is in first class shape at the present time; however, we shall need this coming year at least 500 feet of new rubber-lined hose to take the place of some of the old hose, which, while in fair condition, might show weakness if put under a heavy load. The boiler, which was installed in the engine house at the time it was built in 1912, will have to be replaced during the coming year, it having given out entirely in one section, and repairs would amount to more than a new boiler because new parts cannot be purchased without special patterns being made. These two items would amount to between $1,000.00 and $1,500.00 by estimate. There are a few of the fire alarm boxes still in use that were installed in 1893 or 1894, which should be replaced by modern boxes and located in important localities.

The high efficiency and the morale of the Department have been maintained throughout the year, and it is an organization of which any town could be proud. There has not been a delay during the year in responding promptly to 165 calls, and I take this occasion to thank the members of the Department for their wholehearted cooperation during the year, not only for myself, but for the people of the town; also the courtesies and assistance rendered by individuals, showing their interest in the welfare of the Department.

GEORGE E. LEWIS, Chief Engineer.

SUPERINTENDENT'S REPORT

To the Newport School Board:

I herewith submit my fourth annual report as superintendent of schools.

It is interesting to note that Newport has not experienced the reduction in number of pupils which has occurred in many cities and towns in the country. Our total enrollment has, on the other hand, grown constantly larger, except last year. This means that there is no let-up in the requirements for accommodations, materials, and teachers. The high school continues for the third successive year to have an enrollment of more than 300, and the present indications point to a continuation of this registration.

There are 35 teachers, the same as last year.

There was a commendable drop in tardiness, compared with the previous year, both in the high and elementary schools. The per cent of attendance was a little lower, due to absences in the first grade and rural schools.

Another fact not generally realized by the citizens is the large number of changes in school population. Although most of our town population is quite permanent, there is a mobile fringe, which results in pupils entering or leaving our school rooms in a fairly continuous stream. During the fall term this year 50 new pupils have entered and 19 pupils have left school. Many of these new pupils are found to be behind our grades and so require special coaching. Sometimes non-English-speaking children add to the difficulties of instruction. These new arrivals frequently tell us that our schools are superior to their former schools.

REPAIRS

The one item of repair which was the most needed and will be most appreciated is the installation of modern toilets with septic tanks in the three rural schools. It is a great satisfaction to abolish the unpleasant, unsanitary conditions which have marked rural schools for generations. The total cost for the three schools was $1,067.83.

Towle High School

At the Towle High School a start has been made on repainting the interior. Last summer the rooms on the top floor

were refinished. It is planned to repaint one floor each year until the whole building is covered.

The partition in the commercial room was moved toward the front of the room the width of one window in order to provide space for more typewriters. There are now 24 typewriters. The demand for this type of instruction is so great that another year six more machines must be added. The large bookkeeping desks were removed and stored in the lower part of the Grange Hall. They took up too much room and would not seat the number of pupils we have to put in the room. These desks have not been used for years for bookkeeping because the bookkeeping classes have become too large for the commercial room and have been moved to Room 2. In place of the large desks we have installed small tables. Such are the expedients to which we have to resort in order to accommodate a 350-pupil school in a 250-pupil building. The headmaster is efficient in packing, as well as in instructing.

Richards School

Forty new adjustable seats and desks were installed in the east room on the second floor, replacing old and worn furniture. The new desks were placed so that the light from the windows comes in from the left and rear instead of right and rear as formerly.

We are indebted to the Public Service Company of New Hampshire for the generous loan of a modern electric range for the use of the domestic arts girls. This replaces the old type formerly used.

Primary School

All the classrooms were repainted last summer. The corridors were painted last year. We also completed painting the outside woodwork on the building.

TEACHERS' MEETINGS

The teachers of this supervisory union have held several meetings, as in other years, for the study of a special topic. In the past three years we have discussed study habits, reading, and character education. This fall we studied methods of teaching arithmetic. Professional books on the subject were furnished each school. The teachers met in three groups according to the grades they teach, each group being in charge of a chairman. The discussion proved very interesting and helpful. The findings of each group were summarized and given to each teacher. A copy was also sent to the State Board of Education, containing some suggestions for a future revision of the state program of studies.

INSTRUCTIONAL RESULTS

Every year standard tests in the fundamental subjects are given to the pupils. At the beginning of the year these tests show the standing of each pupil and of the entire grade and indicate remedial work needed; at the end of the year they indicate the progress made during the year. The results of the tests given in the fall, 1937, were very satisfactory in arithmetic computation, arithmetic reasoning, language, and reading. Out of 22 grade tests in these subjects only three were below standard. The results were much better than those of last yar.

It is commonly supposed that the long summer vacation results in an educational loss, so that pupils know less in September than they did in June. In some details this is probably true, but the tests in reading and arithmetic show that in nearly every case the average of the group is equal, and sometimes superior, to the average of the preceding June. The per cent of non-promotions in the first grade last year was 12.8%. The preceding year it was 13%. It is commonly 20% or more. Our success, therefore, is better than the average.

The first grade can be accommodated quite well in two sections this year, so the primary overflow room at the Richards School was discontinued. This little room had to be used for a small division of the fifth grade, which totals 106 pupils. Without this extra room, (formerly the superintendent's office), as a safety-valve, our crowded grades would certainly explode. This safety-valve will have to be maintained for some time to come.

EVENING SCHOOL

Instruction in English was given during the year 1936-37 twice a week for 44 nights by Miss Nina Usko. The average attendance was 15 pupils. Certificates were awarded to sixteen, The total expense of the school was $148.66, (teacher $88.00, janitor $44.00, books $16.66).

Owing to the small enrollment and lack of requests for its continuation, the evening school was not started this year.

The plan for additional school accommodations presented a year ago was not adopted by the voters. I do not blame the taxpayers for not wanting to increase the tax rate. The plan was given, however, a full and fair hearing. We can gracefully accept even an adverse note given by a majority after due deliberation. I hope I may not be charged with petulantly harping on one subject if I remind the citizens that our housing problem is still with us. I should be remiss in my duty if by silently passing over the subject I gave the impression that our accommodations are now adequate.

FINANCES

In view of the present unfavorable economic conditions, the budget for 1938-39 has been kept to as low an estimate as possible and still operate our schools efficiently. The comparative table of expenditures for three consecutive years shows few changes in the various items of expenditure. The estimated costs for 1938-39 are less than the budget for the present school year.

The estimated income for next year is a little larger than in other years. We have lost fewer tuition pupils so far this year than usual. Therefore, the appropriation needed, ($69,-237.85), is the smallest for four years.

I again wish to express my deep appreciation of the harmonious cooperation of School Board, teachers, and all others connected with the schools.

Sincerely yours,

ALFRED W. SMITH,
Superintendent of Schools.

D. Extra-Curricula Activities

1. The Student Council was again organized as a governing body for fifteen subordinate organizations, including a newly formed Camera Club. The activities calendar for the year was mapped out by this organization early in September and general supervision of the extra-curricula activities is maintained.

2. The Thirty-Third Annual Fairbanks Junior Prize Speaking Contest was held on May 14, 1937. Nine Juniors presented a very creditable program. Herbert Smith won first prize with the selection, "The Soul of the Violin;" Barbara Hyatt won second prize for her selection, "Sire De Maletroit's Door;" and Norman Flint received honorable mention for his selection, "Homer and Humbug." The judges were Mr. Harry B. Preston, Miss Gertrude Emerson and Mr. Maynard Waltz of Keene Nor-

mal School. Merton Sayles, the 1936 prize winner, won first place in the Inter-scholastic Prize Speaking Contest held at the University of New Hampshire on May 5, 1937.

3. The Towle Athletic Association has provided opportunities of participation in Football, Basketball, Baseball, Track, Winter Sports and Field Hockey, with an approximate total of 170 pupils participating. The Armory has been secured for basketball purposes and is by far the most adequate athletic plant ever made available to the high school to date. Attention is again called to the fact that the playground is not adequate, if it is to be properly reserved for athletic purposes. In addition to a fence, the ground needs re-seeding and it should be properly mowed in the summer months in order to preserve the grassed surface. With the enforcement of the new insurance laws of the state, it becomes increasingly imperative for transportation to be provided for school athletic teams in regulation buses properly insured and capably operated. Under the present law it is an imposition to ask the local citizens to contribute cars for athletic transportation.

4. A series of auditorium programs is being offered with a view to the possible pupil development along dramatic and rhetorical lines. These programs are given by various class groups and organizations at regular intervals throughout the year. In addition, occasional outside speakers are obtained to round out the assembly program.

5. The school library is fast becoming one of the outstanding developments in the school in recent years. Through the generosity of townspeople and friends many useful books have been added to those which are being systematically purchased. At the present time there are: 75 volumes of fiction, 35 volumes of science references, 35 volumes of civic and economic references, 17 volumes of classical English, 25 volumes of French references, 17 volumes of geography references, 55 volumes of Ancient, Medieval and Modern History, 24 volumes of American History references, 14 volumes of Latin readings, 5 volumes of Mathematics references, 30 volumes of Sociology references, 6 current publications and 2 sets of encyclopedic references. Student librarians assist the teachers in the operation and use of the library throughout the school day.

E. Administration

1. The testing program included a series of high school progress tests administered in September to the three upper classes, the results of which are as follows:

Grade 12, State median, 38; Towle High School median, 38

Grade 11, State median, 30; Towle High School median, 37
Grade 10, State median, 26; Towle High School median, 29

1. The excellent progress during the past year was sufficient basis for the recent change in our music program, namely, a credit system for chorus, band and orchestra departments. Under this plan, adopted by the School Board in September, 1937, and approved by the State Board of Education, pupils may participate in two of the three musical groups, earning a quarter of a unit toward graduation yearly. This gives a maximum of two units toward graduation, and if the pupil should go to a school of music, these credits are transferable.

3. There were no marked changes in the curriculum from the previous year, but there is a trend which should be recognized and met with adequate equipment. During the past few years an increasing number of people are continuing in school beyond the eighth grade in courses of specific vocational training. To meet these demands, we have enlarged the offerings in the Commercial and Practical Arts courses, but these departments are noticeably deficient in materials and equipment, and if enrollment continues to increase along these lines, added facilities should be provided. It would seem infinitely more sound to provide training for these young people than to turn them away, with no immediate employment in view, because of inadequacies in the educational plant.

I feel that the faculty, the student body and the community as a whole deserve commendation for making the work of the past year pleasant and profitable.

Respectfully yours,

ERNEST M. PERKINS.

REPORT OF SCHOOL NURSE

Mr. Alfred W. Smith,
Superintendent of Schools.
Dear Sir:

I herewith submit my annual report as school nurse covering the period from February 1, 1937 to February 1, 1938.

Each year the amount of time that I find necessary to give to school and home visits for children, seems to increase. While we have been fortunate in having few serious health disturbances, we have been faced with an unusually large number of children, needy with respect to food and clothing. The various relief agencies and other organizations of the town have cooperated in a fine way, (as for example, the Milk Fund), and in the main the children have been well cared for.

Through your cooperation, we were able to have Dr. Mansfield give of his time for the examination of the children's eyes throughout the Newport schools. Many of the cases of defective vision so revealed have been cared for through the help of the Newport Lions Club. As heretofore, the Red Cross has maintained dental clinics for the children. This organization has also given some financial aid to our tonsil clinics. No other clinics for school children have been conducted.

I closing, I would like to suggest that it would be well if the audiometer would be obtained so that all of the school children could have a thorough hearing test.

Respectfully submitted,

ANNA DONOVAN, R. N.

NO-SCHOOL SIGNAL

When the weather is so bad that it is inadvisable for children to attend school, the no-school signal will be sounded by the fire whistle at 7:30 in the morning. The signal is 2-2-2. When it is necessary to close school in the morning it will mean that school sessions will be omitted all day. It would be practically impossible to get bus and tuition pupils to attend an afternoon session only.

If when schools are in session in the morning it seems advisable to omit the afternoon session, the no-school signal will be given at 11:30. Children in school will, of course, be notified in such a case.

In addition to the fire signal the electric lights, through the courtesy of the New Hampshire Public Service Company, will be turned on for a few minutes at the time the no-school signal is sounded.

On no-school days a pre-arranged system of telephoning gives notice to those who transport school children, to teachers, and as far as possible, to out-of-town tuition pupils. Persons who are doubtful about the no-school signal should call the superintendent or some other member of the school department rather than the fire station. Unnecessary calling of the fire station might interfere with emergency calls which should reach the fire department quickly.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

NEWPORT SCHOOL DISTRICT

To the Inhabitants of the School District in the Town of Newport, in the County of Sullivan, in the State of New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said District on the fifth day of March, 1938, at two o'clock in the afternoon, to act upon the following subjects:

Article 1. To choose a Moderator for the coming year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Member of the School Board for the ensuing three years.

Article 4. To choose a Treasurer for the ensuing year.

Article 5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.

Article 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

Article 7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

Article 8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.

Article 9. To see if the district will vote to pay for the rental of halls for school activities at an annual cost not to exceed $280.00, appropriate money therefor and pass any vote in relation thereto.

Article 10. To see if the district will vote to assist in furnishing transportation for groups of high school pupils engaged in athletic games out of town at an annual cost not to

exceed $200.00, appropriate money therefor and pass any vote in relation thereto.

Article 11. To transact any other business that may legally come before said meeting.

Given under our hands and seals this ninth day of February, 1938.

L. JOSSELYN YOUNG,
JOHN J. CONDON,
HERBERT G. MARTIN,
